

IMPORTANT INFORMATION REGARDING THE SELECTION OF YOUR MOTORHOME

When buying a motorhome, camper van or urban vehicle (hereafter: motorhome), it is particularly important to choose the right layout and an appealing design. In addition, weight also plays an essential role. Family, friends, optional equipment, accessories and baggage – space must be available for all of these. At the same time, there are legal and technical limits to the configuration and load. Every motorhome is designed for a certain weight, which may not be exceeded during driving. For motorhome buyers, this raises the question: How should I configure my vehicle to accommodate passengers, baggage and accessories according to my needs without the vehicle exceeding this maximum weight? In order to make this decision easier for you, we provide you below with a few tips that are particularly important when selecting your vehicle from our portfolio:

1. THE TECHNICALLY PERMISSIBLE MAXIMUM LADEN MASS...

... is a value set by the manufacturer which the vehicle may not exceed. Carado specifies a layout-related upper limit for the vehicle, which can vary from layout to layout (e.g. 3,500 kg, 4,400 kg). You can find the corresponding specification for each layout in the technical data.

TYPE / MODEL	CV540 PRO	CV600 PRO
PERMITTED NUMBER OF SEATS (INCLUDING DRIVER)*		
BERTHS	/ + OPT	/ + OPT
Length / Width / Height (cm)	541 / 205 / 273	599 / 205 / 273
Headroom in living area (cm)	190	190
Standard chassis	Fiat Ducato	Fiat Ducato
Standard engine	2.2 Multijet	2.2 Multijet
kW (BHP)	103 (140)	103 (140)
Mass in running order (kg)*	2760 (2622 to 2898)*	2866 (2723 to 3009)*
Manufacturer-specified mass for optional equipment (kg)*	411	305
Technically permissible maximum laden mass (kg) *	3500	3500

2. THE MASS IN RUNNING ORDER...

... consists – to put it simply – of the basic vehicle with standard equipment plus a standard weight of 75 kg for the driver. It is legally permissible and possible for the mass in running order of your vehicle to deviate from the nominal value stated in the sales documents. The permissible tolerance is $\pm 5\%$. The permissible range in kilograms is given in brackets after the mass in running order. In order to provide you with full transparency regarding possible weight deviations, Carado weighs each vehicle at the end of the line and informs your trade partner of your vehicle's weighing result for forwarding to you.

Detailed explanations on the subject of mass in running order can be found in the “Legal Information” section.

3. THE PERMITTED NUMBER OF SEATS (INCLUDING DRIVER)...

... is determined by the manufacturer in what is referred to as the type-approval procedure. This results in what is referred to as the mass of the passengers. For this, a standard weight of 75 kg per passenger (without driver) is calculated. Detailed explanations on the subject of mass of the passengers can be found in the “Legal Information” section.

TYPE / MODEL	CV540 PRO	CV600 PRO
PERMITTED NUMBER OF SEATS (INCLUDING DRIVER)*		
BERTHS	/ + OPT	/ + OPT
Length / Width / Height (cm)	541 / 205 / 273	599 / 205 / 273
Headroom in living area (cm)	190	190
Standard chassis	Fiat Ducato	Fiat Ducato
Standard engine	2.2 Multijet	2.2 Multijet
kW (BHP)	103 (140)	103 (140)
Mass in running order (kg)*	2760 (2622 to 2898)*	2866 (2723 to 3009)*
Manufacturer-specified mass for optional equipment (kg)*	411	305
Technically permissible maximum laden mass (kg) *	3500	3500

4. THE MANUFACTURER-SPECIFIED MASS FOR OPTIONAL EQUIPMENT...

... is a value set by Carado per layout for the maximum mass of optional equipment that can be ordered. This limit is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. If, in exceptional cases, the weighing at the end of the line nevertheless shows that the actual load capacity falls short of the minimum pay-mass due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle.

Detailed explanations on the subject of the effects of the tolerances on the minimum pay-mass and the payload can be found in the “Legal Information” section.

OPTIONAL EXTRAS

CONVERSION

Insulated waste water tank

ADDITIONAL WEIGHT*

5 kg

BASIC PACK + 32.4 kg*

Roof light over lounge area 70 x 50 cm

Shower equipment (extendable shower)

Window in bathroom

5. THE ADDITIONAL WEIGHT OF OPTIONAL EQUIPMENT AND PACKAGES...

... increases the actual mass of the vehicle (= mass in running order plus selected optional equipment) and reduces the pay-mass. The specified value shows the additional weight compared to the standard equipment of the respective layout. The total weight of the selected packages and optional equipment must not exceed the manufacturer-specified mass for optional equipment.

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

CAMPER VAN

STANDARD EQUIPMENT

HIGHLIGHTS PRO PACK

- Fiat Ducato 3.500 kg - 2.2 Multijet - 103 kW / 140 BHP Euro 6 - 6-speed manual gearbox
- Bumper painted in White ²⁾
- 16" alloy wheels
- Folding Cab Blinds
- 90 l fuel tank
- Multifunction steering wheel
- Awning
- pro decals
- Basic Pack
- Style Pack

CHASSIS / BASE VEHICLE

- Electric and heated mirrors
- LED daytime running lights
- Cruise control
- ESP incl. ASR & Hillholder
- ESC Setup
- ABS
- Start & Stop function incl. booster
- Driver airbag
- Passenger airbag
- Manual cab air conditioning
- Electric operated cab windows and central locking
- Fix & Go breakdown kit
- On-board computer incl. exterior temperature display
- Central cup holder
- Disc brakes, rear and front wheel stabilisers, heat convection, tachometer, power steering, height-adjustable headlights, immobiliser, lap and diagonal seat belts
- Driver and passenger seats in matching colours
- Captain chairs with covers
- Height and tilt adjustable driver and front passenger seats
- Swiveling driver and passenger seats

EXTERIOR SETUP

- 7-year water ingress warranty ³⁾
- Double glazed hinged windows with cassette blinds and fly screens (siting area, kitchen)
- Rear hinged window (incl. blackout blind and flyscreen)
- Both rear doors with hinged window (incl. roller blind)
- Roof light 40 x 40 cm over lounging area with fly screen and blinds
- Roof light 40 x 40 cm over bedroom with fly screen and blinds
- Rear storage space with 4 integrated lashing rings

COMFORT

- Isofix for 2 seats
- Bulkhead incl. step for rear double bed
- Flyscreen door
- Pedestal in lounging area with integrated storage compartment
- Half dinette with integrated storage compartment
- Rear bed with partly slatted frame
- High quality mattresses with integrated GOODSITE for better sleeping comfort
- Ergonomically shaped upholstery for improved seating comfort
- Easy to position spotlight in light bar (except CV601)
- Spacious storage compartments and storage options
- Storage space in rear and sliding doors
- Spacious wardrobe (except CV540)
- Furniture in Visby Oak and Sand grey
- Floor Calais
- Folding Cab Blinds

INSTALLATIONS

- Flexible light strip
- Illuminated pedestal in lounging area
- Individually adjustable LED spotlights
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Sockets 3 x 230V, 1 x USB (double)
- Fresh water tank capacity total 100 l, waste water tank 90 l

HEATING / GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles (except CV601 with 2 x 5 kg bottles)
- Gas heating Combi 4
- Diesel heating Combi 4
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawers in kitchen
- 2 Burner gas cooker with electric ignition and glass cover
- Worktop behind cooker (except CV540)
- Compressor fridge 84 l
- LED light tube
- Suspension bar (except CV540)

BATHROOM EQUIPMENT

- Fixed washbasin
- Spacious storage area
- Cassette toilet C 223
- Flush fitting LED spotlights
- Roof light with fly screen

SOFT FURNISHING

- Soft furnishings in 'Grafit'

EXTERIOR COLOUR

- Fiat white

PAINTED BUMPER

- Bumper painted in White ²⁾

PACKS

- Basic Pack
- Style Pack
- pro Pack

CARADO ORIGINAL ACCESSORIES* BACKRACK+

Innovative. Individual. Modular. The Carado Backrack+ with its different components opens up a new world of transportation and makes your Campervan something special. Whether you have bicycles, e-bikes, a spare wheel or transport a practical aluminum box, the right component can be mounted on the Backrack+ quickly and easily. Other components are already being developed and the versatility of the system continuously expanded.

The Carado Backrack+ sets new standards in design and function.

MORE SPACE AND ORDER!

The Backrack+ is an innovative component carrier for your Carado campervan.

Thanks to the various components it opens up a wide range of transport options for your individual journey!

The starting point for this modular system is the base frame. On the Backrack+ base frame you can connect the various components.

Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

- Awning 3.5 m
- Basic Pack
- Chassis Pack

CHASSIS / BASE VEHICLE

- ABS (anti-lock braking system), ESC (electronic stability program), TBC (traction control), EBD (electronic brake force distribution)
- Electric and heated mirrors
- Hill start assist (crosswind assist, safety brake assist, rollover protection)
- Driver and Passenger airbag
- Tyre pressure indicator
- Start & Stop Function incl. Booster
- Headlights with daytime running lights
- Rear mud flaps & side guards
- Disc brakes, rear and front wheel stabilisers, heat convection, tachometer, power steering, height-adjustable headlights, immobiliser, lap and diagonal seat belts
- Cruise control
- Electric cab windows
- Radiator grille chrome
- Fix & Go breakdown kit
- Thermal insulation glazing
- Central locking cab with remote control
- Audio remote control on steering wheel
- Radio (FM/MW) incl. four front speakers, DAB antenna, Bluetooth interface, USB port, hands-free system
- Cup holder driver and passenger side
- USB socket in the driver's cab
- Leather steering wheel
- Driver and passenger seats in matching colours
- Height and tilt adjustment for driver and passenger seat
- Comfort swivel seats for driver and front passenger, each with 2 armrests and lumbar support
- 70l fuel tank

EXTERIOR SETUP

- 7-year water ingress warranty ³⁾
- Frame window double-glazed with flyscreen and blackout blind (seating area, kitchen)
- Double-glazed window frame (incl. blackout blind and fly screen)
- Both rear doors with fixed glass (incl. blackout blind)
- Roof light 28 x 28 cm over kitchen area with fly screen and blinds
- Roof light 28 x 28 cm over bedroom with fly screen and blinds
- Rear storage space with 4 integrated lashing rings

COMFORT

- Isofix for 2 seats
- Bulkhead incl. step for rear double bed
- Flyscreen door
- Rear bed with partly slatted frame
- High quality mattresses with integrated GOODSITE for better sleeping comfort
- Ergonomically shaped upholstery for improved seating comfort
- Easy to position spotlight in light rail
- Spacious storage compartments and storage options
- Textile cab blinds
- Furniture in Visby Oak and Sand grey
- Floor Calais

INSTALLATIONS

- Flexible light strip
- Individually adjustable LED spotlights
- Recessed LED spotlights in the living room and bathroom area
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Sockets 3 x 230V, 1 x USB (double)

HEATING / GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles
- Gas heating Combi 4
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawers in kitchen
- 2 Burner gas cooker with piezo ignition and glass cover
- Compressor fridge 62 l
- LED light tube
- Suspension bar

BATHROOM EQUIPMENT

- Fixed washbasin
- Spacious storage area
- Cassette toilet C 223
- Flush fitting LED spotlights
- Roof light with fly screen

HIGHLIGHTS PRO PACKAGE

- Citroën Jumper 3.500 kg - 2.2 Blue HDI - 103 kW / 140 PS Euro 6D - 6-speed-gearbox
- Chassis colour white
- Painted bumper
- 16" steel rims with wheel trims
- Folding Cab Blinds
- Cab sunroof
- Special coloured overhead storage cupboard doors in cozy white
- pro decals
- Insulated waste water tank
- 2nd external storage door (size depends on layout)
- Basic Pack

CHASSIS / BASE VEHICLE

- Front Wheel Drive
- Daytime running lights, integrated in headlights
- Cruise control
- Driver and Passenger airbag
- ABS, EBD, ESP
- Comfortable driving experience with rear and front axle stabilizers
- Start & stop function incl. charge booster
- Electric and heated mirrors
- Electric operated cab windows and central locking
- Fix & Go breakdown kit
- Captain-chairs with covers
- Radio aerial integrated in mirror
- Central cup holder
- Manual cab air conditioning
- Radio pre-wiring including speakers
- Painted and chrome-plated grille
- Disc brakes, heat convection, tachometer, power steering, immobiliser, 3-point seat belt
- Driver and passenger seats with armrests & upholstered covers
- Driver and passenger seats swivel
- Height and tilt adjustable driver and front passenger seats
- 90l fuel tank

EXTERIOR SETUP

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness: 34mm, floor thickness: 41mm
- Rear light carrier in three parts with integrated LED multifunction lights
- High quality entrance door with ergonomic handle inside and outside
- Electric entrance step
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Large rear garage with lowered frame, lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- Table extension
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Overhead lockers with softclose system
- Furniture in 'Visby Oak'
- Floor Calais

INSTALLATIONS

- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- USB Socket (double)
- Fresh water tank capacity total 116 l, waste water tank 92 l

HEATING / GAS SUPPLY

- Gas control valves easily accessible and centrally arranged
- Gas heating Combi 4
- Gas bottle locker for 2 x 11 kg gas bottles

EQUIPEMENT KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawers in kitchen
- 2 Burner gas cooker with piezo ignition and glass cover
- Fridge 78 l with 11 l freezer compartment
- Waste bin

BATHROOM EQUIPMENT

- Vario-bathroom
- Roof vent with integrated flyscreen blind
- Large mirrors
- Clothes rail in bathroom
- Shower cubicle lining

MOTORHOME STANDARD EQUIPMENT

CHASSIS / BASE VEHICLE

- Fiat Ducato 3.500 kg - 2.2 Multijet - 103 kW / 140 BHP Euro 6 - 6-speed manual gearbox
- Wide-track chassis
- Front Wheel Drive
- Daytime running lights, integrated in headlights
- Cruise control
- Driver airbag
- Passenger airbag
- ABS, EBD, ESP incl. ABS and hillholder
- Start & Stop function incl. booster
- Low vibration, electrical and heated cab mirrors in coach optic with wide angle
- Panoramic laminated glass windshield all-round
- Fix & Go breakdown kit
- Central cup holder
- Manual cab air conditioning
- Comfortable driving experience with rear and front axle stabilizers
- Disc brakes, heat convection, tachometer, power steering, immobiliser, 3-point seat belt
- Driver and passenger seats with armrests & upholstered covers
- Driver and passenger seats swivel on Low Profile A-Class models and Overcab A132
- 75l fuel tank
- Height and tilt adjustable driver and front passenger seats
- Traction+
- Headlamp trim in grey
- Full LED front lighting (daytime running light, low beam, high beam and turn signal)
- Electric and heated mirrors
- Pilot seats with covers

EXTERIOR SETUP

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness: 34mm, floor thickness: 41mm
- Rear light carrier in three parts with integrated LED multifunction lights
- Cab blinds for best insulation and privacy shield
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Coupé entrance
- Large rear garage with lowered frame, lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg
- High quality entrance door with ergonomic handle inside and outside

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- L-shape lounge with free-standing and rotating table ⁹⁾
- Table extension ¹⁰⁾
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Pull-down bed with Clima-Plux elements
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Furniture in Visby Oak and Sand grey
- Floor Calais
- Pull-down bed with Clima-Plux elements

INSTALLATIONS

- LED lighting integrated above the roof cabinets
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- Mirror with indirect lighting and coat hooks
- 4x USB Socket (layout depending)
- Fresh water tank capacity total 122 l, waste water tank 92 l
- Radio pre-wiring with loudspeakers and roof antenna

HEATING / GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles
- Combi 6 gas heating
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawers in kitchen
- 2 burner hob and glass lid
- Large stainless steel circular sink with cover
- Fridge 98 l with freezer compartment 11 l
- LED light band
- Waste bin
- Flexible railing system with 2 hooks ¹¹⁾

BATHROOM EQUIPMENT

- Spacious bathroom with separate shower on the opposite side ¹²⁾
- Vario-bathroom ¹³⁾
- Swivel cassette toilet with electric flush ¹⁴⁾
- Roof vent with integrated flyscreen blind (depending on model)
- Large mirrors
- Clothes rail in bathroom
- Flexible railing system with two hooks ¹⁵⁾

SOFT FURNISHING

- Living world in White

* INFO

The factory installation of optional equipment increases the actual mass of the vehicle and reduces the pay-mass. The additional weight indicated for packages and optional equipment shows the additional weight compared to the standard equipment of the respective model or layout. The total weight of the selected optional equipment must not exceed the manufacturer-specified mass for optional equipment

shown in the model overviews. This is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. Detailed information and explanations on the subject of weight can be found in the Legal information section.

CARADO ORIGINAL ACCESSORIES* MORE COMFORT TO TRAVEL!!

Our Carado water filter clearliQ travel ensures hygienically pure water on the go – reliable, odor and taste neutralizing, and easy to change the filter.

Our outdoor insulating mats offer optimal heat protection in winter and effective sun protection in summer - easy to apply and suitable for any vehicle with a Fiat chassis.

And with our practical cot you can create additional sleeping space in the Fiat vehicle: Easy to assemble, space-saving and with a load capacity of 50 kg ideal for children.

WATER FILTERS CLEARLIQ TRAVEL POWERED BY GRÜNBECK

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

⚖️ * INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

STANDARD EQUIPMENT

HIGHLIGHTS EDITION24

- Chrome Blue Chassis Colour
- Painted bumper
- 16" alloy wheels
- Cab sunroof
- Large 156 l fridge with separate 29 l freezer compartment
- Insulated waste water tank
- Awning
- Folding Cab Blinds
- 12V TV pre-cabling incl. flat screen holder
- TV-Pack (22" flat screen + holder, Teleco Telesat 65)
- Framed windows
- High-level rear light cluster
- 2nd external storage door (size depends on layout)
- Edition graphics
- Living World Grey
- Basic Pack
- Chassis Pack

CHASSIS / BASE VEHICLE

- Ford Transit 3.500 kg - 2,0l TDCi - 96 kW (130 BHP) - Euro VI E - 6-speed manual gearbox
- Wide-track chassis
- Front Wheel Drive
- Headlights with daytime running lights
- Cruise control
- Driver and Passenger airbag
- ABS (anti-lock braking system), ESC (electronic stability program), TBC (traction control), EBD (electronic brake force distribution)
- Hill start assist (crosswind assist, safety brake assist, rollover protection)
- Tyre pressure indicator
- Start & Stop Function incl. Booster
- Electric cab windows
- Central locking cab with remote control
- Radiator grille chrome
- Fix & Go breakdown kit
- Radio (FM/MW) incl. four front speakers, DAB antenna, Bluetooth interface, USB port, hands-free system
- Cup holder driver and passenger side
- Tablet holder and USB port
- Disc brakes, rear and front wheel stabilisers, heat convection, tachometer, power steering, height-adjustable headlights, immobiliser, lap and diagonal seat belts
- Electric and heated mirrors
- Comfort swivel seats for driver and front passenger, each with 2 armrests and lumbar support
- Height and tilt adjustment for driver and passenger seat
- Driver and passenger seats in matching colours
- 70l fuel tank
- Leather steering wheel

EXTERIOR SETUP

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness: 34mm, floor thickness: 41mm
- Rear light carrier in three parts with integrated LED multifunction lights
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Electric entrance step
- Large rear garage with lowered frame, lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg
- High quality entrance door with ergonomic handle inside and outside

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- Table extension
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Furniture in Visby Oak and Sand grey
- Floor Calais

INSTALLATIONS

- LED lighting integrated above the roof cabinets
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- Mirror with indirect lighting and coat hooks
- 4x USB Socket (layout depending)
- Fresh water tank capacity total 122 l, waste water tank 92 l
- Radio pre-wiring including speakers
- 12V TV pre-cabling incl. flat screen holder

HEATING / GAS SUPPLY

- Combi 6 gas heating
- Gas control valves easily accessible and centrally arranged
- Gas bottle locker for 2 x 11 kg gas bottles

EQUIPEMENT KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawers in kitchen
- 2 burner hob and glass lid
- Large stainless steel circular sink with cover
- LED light band
- Waste bin
- Flexible railing system with 2 hooks ¹¹⁾

BATHROOM EQUIPMENT

- Vario-bathroom ¹³⁾
- Spacious bathroom with separate shower on the opposite side ¹²⁾
- Swivel cassette toilet with electric flush
- Roof vent with integrated flyscreen blind (depending on model)
- Large mirrors
- Clothes rail in bathroom
- Flexible railing system with two hooks ¹⁵⁾

* INFO

The specified mass in running order is a default value defined in the type-approval procedure. Due to manufacturing tolerances, the actual weighed mass in running order may deviate from the value stated above. Deviations of up to ± 5 % of the mass in running order are legally permissible and possible. The permissible range in kilograms is given in brackets after the mass in running order. The manufacturer-specified mass for optional equipment is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado. The real weight of your vehicle ex works can only be determined when it is weighed at the

end of the line. If, in exceptional cases, the weighing shows that the actual load capacity falls below the minimum pay-mass despite limiting the optional equipment due to a permissible weight deviation, we will check together with your trade partner and you whether we should, for example, increase the load capacity of the vehicle, reduce the number of seats or remove optional equipment before delivering the vehicle. The technically permissible maximum laden mass of the vehicle and the technically permissible maximum mass on the axle must not be exceeded. Detailed information & explanations on the subject of weight and the configuration of the vehicle can be found in the section Legal information. For a more detailed description of all mandatory technical dependencies, please refer to the explanations on the footnotes.

Configure your dream vehicle

MOTORHOME STANDARD EQUIPMENT

HIGHLIGHTS PRO PACKAGE

- 16" alloy wheels
- 2nd external storage door (size depends on layout) ²²⁾
- Safety Pack: 2 headrests and 2 lap belts on bench against direction of travel (Persons permitted depending on vehicle weight) * ²³⁾
- Large 156 l fridge with separate 29 l freezer compartment ²³⁾
- pro decals
- Basic Pack

CHASSIS / BASE VEHICLE

- Citroën Jumper 3.500 kg - 2.2 Blue HDI - 103 kW / 140 PS Euro 6D - 6-speed-gearbox
- Front Wheel Drive
- Wide-track chassis
- Daytime running lights, integrated in headlights
- Cruise control
- Driver and Passenger airbag
- ABS, EBD, ESP
- Comfortable driving experience with rear and front axle stabilizers
- Start & stop function incl. charge booster
- Painted bumper
- Electric and heated mirrors
- Electric operated cab windows and central locking
- Fix & Go breakdown kit
- Radio aerial integrated in mirror
- Central cup holder
- Radio pre-wiring including speakers
- Manual cab air conditioning
- Painted and chrome-plated grille
- Disc brakes, heat convection, tachometer, power steering, immobiliser, 3-point seat belt
- Driver and passenger seats with armrests & upholstered covers
- Height and tilt adjustable driver and front passenger seats
- 90l fuel tank
- 16" alloy wheels
- Captain-chairs with covers
- Driver and passenger seats swivel on Low Profile A-Class models and Overcab A132

EXTERIOR SETUP

- 7-year water ingress warranty ³⁾
- GRP (glass fibre reinforced plastic) roof and rear wall
- Aluminium sidewalls
- Roof and sidewall thickness: 34mm, floor thickness: 41mm
- Rear light carrier in three parts with integrated LED multifunction lights
- Double glazed hinged window with cassette blinds and flyscreens (except for bathroom)
- Roof light with frosted perspex glass and flyscreen
- Electric entrance step
- Large rear garage with lowered frame, lashing rings and interior lighting (depending on model)
- Splash water seals for the exterior storage locker and doors
- Payload in garage up to 150 kg
- High quality entrance door with ergonomic handle inside and outside
- 2nd external storage door (size depends on layout) ²²⁾

COMFORT

- Ergonomically shaped upholstery for improved seating comfort
- Isofix for 2 seats
- Table extension ¹⁰⁾
- High-quality mattress in all beds
- Removable and washable mattress cover
- Wooden slatted frame in all fixed-beds for better sleeping comfort
- Overcab with side window on the right, hot air nozzles, 72 cm headroom and 210 x 160 cm bed size
- Sliding overcab bed for an improved access to the cab
- Safety net on overcab beds, bunk beds and on pull-down beds (depending on model)
- Spacious storage compartments and storage options
- Ventilation for storage locker and seat backrest
- Furniture in Visby Oak and Sand grey
- Floor Calais
- Bed conversion for seating area ²⁾
- Safety Pack: 2 headrests and 2 lap belts on bench against direction of travel (Persons permitted depending on vehicle weight) * ²³⁾

INSTALLATIONS

- LED lighting integrated above the roof cabinets
- High-performance, maintenance-free leisure battery (95 Ah AGM)
- On-board control panel supplies information about filling levels and battery capacity
- Automatic switching and separating systems for starter and leisure battery as well as for refrigerator
- Electric charger for leisure and vehicle battery 12 V / 18 A
- CEE 230 V external socket with safety device
- Residual Current Device (RCD)
- LED-Awning light
- LED Interior light
- 4x USB Socket (layout depending)
- Mirror with indirect lighting and coat hooks
- Fresh water tank capacity total 122 l, waste water tank 92 l
- Radio pre-wiring including speakers
- Large 156 l fridge with separate 29 l freezer compartment ²³⁾

HEATING / GAS SUPPLY

- Gas bottle locker for 2 x 11 kg gas bottles
- Combi 6 gas heating
- Gas control valves easily accessible and centrally arranged

EQUIPEMENT KITCHEN

- Ergonomically arranged kitchen with spacious work top
- Large soft-close drawers in kitchen
- 2 burner hob and glass lid
- Large stainless steel circular sink with cover
- Fridge 78 l with 11 l freezer compartment
- LED light band
- Waste bin
- Flexible railing system with 2 hooks ¹¹⁾
- Large 156 l fridge with separate 29 l freezer compartment ²³⁾

BATHROOM EQUIPMENT

- Bathroom with separate shower ²³⁾
- Vario-bathroom ¹³⁾
- Swivel cassette toilet with electric flush
- Roof vent with integrated flyscreen blind (depending on model)
- Large mirrors
- Clothes rail in bathroom

PACKS

- Basic Pack
- pro pack A132
- pro pack A361 / A464

The factory installation of optional equipment increases the actual mass of the vehicle and reduces the pay-mass. The additional weight indicated for packages and optional equipment shows the additional weight compared to the standard equipment of the respective model or layout. The total weight of the selected optional equipment must not exceed the manufacturer-specified mass for optional equipment

shown in the model overviews. This is a calculated value for each type and layout that Carado uses to determine the maximum weight available for factory-fitted optional equipment. Detailed information and explanations on the subject of weight can be found in the Legal information section.

CARADO ORIGINAL ACCESSORIES* EVERYTHING IN ITS PLACE!

Discover our Carado Bike Carrier for safe and space-saving bicycle transport in the rear garage.

Use the magnetic board and the accessories for the embedded rails in the vehicle, to create order and maximize storage space.

The pull-out kitchen allows easy access to kitchen utensils, while the pull-out seat keeps your Seating area expanded and valuable storage space created.

BIKE CARRIER

ARTICLE	SUITABLE FOR SERIES	ART.-NR.	WEIGHT*
Bike carrier for 2 Bicycles	Low profile Fiat (2016 – 2024)	3143704	6,5 kg

NOTES

Technical data as of August 2023, validity from August 1, 2023

Technical data as of April 2023, validity from April 1, 2023

This brochure contains the series status at the time of printing. Despite checking the content, misprints cannot be ruled out. We reserve the right to make equipment changes or product improvements during the course of the model year. Before concluding the contract, please obtain information about the current product and series status from one of our authorized CARADO trading partners.

Some of the vehicles are shown with special equipment.

The information corresponds to the European homologation regulations; These can change up until the vehicle is purchased or delivered. Your CARADO trading partner will be happy to inform you about any changes and the standard scope of delivery.

The tightness guarantee conditions of Carado GmbH apply.

With the publication of this technical data, all previous price lists and brochures lose their validity.

The copyright lies with Carado GmbH. When specifying technical data, possible printing errors and mistakes remain reserved.

FOOTNOTES

1 Before driving, please ensure that the fresh water tank does not contain more than 20 l.

2 In combination with Maxi Chassis the bumper cannot be painted.

3 The water ingress warranty conditions of Carado GmbH apply.

4 When a trailer hitch is fitted, the mass in running order changes, which may also change the maximum permissible number of persons. Towing mass for ascents not over 12% gradient.

5 With Maxi-Chassis 3,000 / 750 kg.

6 If chassis colour Aluminio Gray, Fer Gray or Black is ordered, then the option "Bumper painted" is a mandatory option.

7 Only in conjunction with headlights on black frames.

8 When ordering the option bed conversion of the seating area on the V132, please note that the wardrobe in living room is replaced with a side seat incl. overhead locker.

9 For T447, I447, I449.

10 Except T447, T457, T459, I447, I449, A361, A464.

11 Except T338, T338ED24, I338.

12 For T447ED24, T449ED24, T447, T457, T459, I447, I449.

13 In A132, T448, T338, T338ED24 and I338.

14 Except T135.

15 Except T338, T338ED24, T448, I338, A132, A361, A464.

16 Not in conjunction with 9-speed automatic transmission.

17 Only in conjunction with 9-speed automatic transmission and/or Maxi Chassis.

18 When ordering the option bed conversion of the seating area in the integrated unit the bed entrance is via the side bench.

19 When ordering the option "5th seat on side bench seat with seat belt", the storage compartment flap inside is omitted. An optional 5th seat must be taken into account when calculating the minimum payload and the mass of the passengers as a regular seat. In order for you to receive the 5th seat, it must be ensured that the minimum payload is still maintained and that all other legal mass values are complied with. Please feel free to contact our trade partners for detailed information.

20 In T135.

21 With an automatic transmission, the total weight is reduced to 4,250 kg and the technically permissible braked trailer load is 750 kg.

22 Lower window will be omitted on A361.

23 A361, A464.

YOUR DREAM
VEHICLE:**

LEGAL INFORMATION ON WEIGHT-RELATED INFORMATION

The weight specifications and tests for motorhomes are uniformly regulated throughout the EU in EU Implementing Regulation No. 2021/535 (until June 2022: EU Implementing Regulation No. 1230/2012). We have summarised and explained the key terms and legal requirements from this regulation for you below. Our dealers and the Carado configurator on our website offer you additional assistance in configuring your vehicle.

1. TECHNICALLY PERMISSIBLE MAXIMUM LADEN MASS

The technically permissible maximum laden mass of the vehicle (e.g. 3,500 kg) is a mass specification set by the manufacturer which the vehicle must not exceed. Information on the technically permissible maximum laden mass of the model you have chosen can be found in the technical data. If the vehicle exceeds the technically permissible maximum laden mass in everyday driving, this constitutes an administrative offence which may result in a fine.

2. MASS IN RUNNING ORDER

In simple terms, the mass in running order is the basic vehicle with standard equipment plus a legally fixed standard weight of 75 kg for the driver. This essentially includes the following items:

- the unladen weight of the vehicle together with the bodywork, including operating fluids such as greases, oils and coolants;
- the standard equipment, i.e. all equipment items that are included as standard in the factory-fitted scope of delivery;
- the fresh water tank filled to 100% in driving mode (driving fill according to manufacturer's specifications; 20 litres) and an aluminium gas cylinder filled to 100% with a weight of 16 kg;
- the fuel tank, which is 90% full, including fuel;
- the driver, whose weight – regardless of the actual weight – is generally specified as 75 kg in accordance with EU law.

Information on the mass in running order can be found for each model in our sales documents. It is important to note that the value for mass in running order given in the sales documents is a default value determined in the type-approval procedure and verified by the authorities. It is legally permissible and possible for the mass in running order of the vehicle delivered to you to deviate from the nominal value stated in the sales documents. The legally permissible tolerance is $\pm 5\%$. In this way, the EU legislator accounts for the fact that certain fluctuations in the mass in running order occur due to variations in the weight of supplied parts as well as due to processes and weather conditions. These weight deviations can be illustrated by means of an example calculation:

- Mass in running order acc. to sales documents: 2,850 kg
- Legally permissible tolerance of $\pm 5\%$: 142.50 kg
- Legally permissible range of mass in running order: 2,707.50 kg to 2,992.50 kg

The specific range of permissible weight deviations can be found for each model in the technical data. Carado makes great efforts to reduce weight variations to the minimum that is unavoidable for production reasons. Deviations at the upper and lower end of the range are therefore very rare; however, they cannot be completely ruled out technically, even with all optimisations. The real weight of the vehicle and compliance with the permissible tolerance is therefore checked by Carado by weighing each vehicle at the end of the line.

3. MASS OF THE PASSENGERS

The mass of the passengers is set a standard value of 75 kg for each seat provided by the manufacturer, regardless of the actual weight of the passengers. The mass of the driver is already included in the mass in running order (see no. 2 above) and is therefore not included again. In the case of a motorhome with four permitted seats, the mass of the passengers is therefore $3 \cdot 75 \text{ kg} = 225 \text{ kg}$.

4. OPTIONAL EQUIPMENT AND ACTUAL MASS OF THE VEHICLE

Optional equipment (also: additional equipment) includes, according to the legal definition, all optional equipment parts not included in the standard equipment which are fitted to the vehicle under the responsibility of the manufacturer – i.e. ex works – and can be ordered by the customer (e.g. awning, bicycle or motorbike carrier, satellite system, solar system, oven, etc.). Information on the individual or package weights of the optional equipment that can be ordered can be found in our sales documents. Optional equipment in this sense does not include other accessories that are retrofitted by the dealer or you personally after the vehicle has been delivered ex works. The mass of the vehicle in running order (see no. 2 above) and the mass of the optional equipment fitted to a specific vehicle at the factory are together referred to as the actual mass. You will find the corresponding information for your vehicle after handover under item 13.2 of the Certificate of Conformity (CoC). Please note that this specification also represents a standardised value. Since the mass in running order – as an element of the actual mass – is subject to a legally permissible tolerance of $\pm 5\%$ (see no. 2), the actual mass may also deviate accordingly from the stated nominal value.

5. PAY-MASS AND MINIMUM PAY-MASS

The installation of optional equipment is also subject to technical and legal limits: Only so much optional equipment can be ordered and fitted at the factory that sufficient free weight remains for baggage and other accessories ("pay-mass") without exceeding the technically permissible maximum laden mass. The pay-mass is calculated by subtracting the mass in running order (nominal value according to sales documents, see no. 2 above), mass of the optional equipment and the mass of the passengers (see no. 3 above) from the technically permissible maximum laden mass (see no. 1 above). The EU regulations stipulate a fixed minimum pay-mass for motorhomes, which must remain as a minimum for baggage or other non-factory-fitted accessories. This minimum pay-mass is calculated as follows:

Minimum pay-mass in kg $\geq 10 \cdot (n + L)$

Where: "n" is the maximum number of passengers plus the driver and "L" is the overall length of the vehicle in metres.

For a motorhome with a length of 6 m and 4 approved seats, the minimum pay-mass is therefore e.g. $10 \text{ kg} \cdot (4 + 6) = 100 \text{ kg}$.

To ensure that the minimum pay-mass is maintained, there is a maximum combination of optional equipment that can be ordered for each vehicle model. In the above example with a minimum pay-mass of 100 kg, the total mass of optional equipment for a vehicle with four permitted seats and a mass in running order of 2,850 kg should not exceed 325 kg:

3.500 kg	technically permissible maximum laden mass
– 2.850 kg	mass in running order
– 3 · 75 kg	mass of the passengers
– 100 kg	minimum pay-mass
= 325 kg	maximum permissible mass of optional equipment

It is important to note that this calculation is based on the default value for mass in running order as defined in the type-approval procedure, without taking into account the permissible weight deviations for mass in running order (see no. 2 above). If the maximum permissible value for the optional equipment of (in the example) 325 kg is almost or completely exhausted, an upward weight deviation can therefore result in the minimum pay-mass of 100 kg being met mathematically using the default value for the mass in running order, although in fact there is no corresponding load capacity. Here, too, an example calculation for a vehicle with four seats, whose real weighed mass in running order is 2% above the nominal value:

3.500 kg	technically permissible maximum laden mass
– 2.907 kg	real weighed mass in running order (+ 2% compared to the stated value of 2,850 kg)
– 3 · 75 kg	mass of the passengers
– 325 kg	optional equipment (maximum permissible value)
= 43 kg	actual load capacity (< minimum pay-mass of 100 kg)

In order to avoid such a situation, Carado further reduces the maximum permissible weight of the total optional equipment that can be ordered on a model-specific basis. The limitation of optional equipment is intended to ensure that the minimum pay-mass, i.e. the legally prescribed free mass for baggage and retrofitted accessories, is actually available for the vehicle load capacity of the vehicles delivered by Carado.

Since the weight of a specific vehicle can only be determined when it is weighed at the end of the line, in very rare cases a situation may arise in which the minimum pay-mass at the end of the line is not guaranteed, despite this limitation of optional equipment. In order to guarantee the minimum pay-mass even in these cases, Carado will check together with your trade partner and you before delivery of the vehicle whether, for example, the vehicle is loaded up, seats are reduced or optional equipment is removed.

6. EFFECTS OF TOLERANCES OF THE MASS IN RUNNING ORDER ON THE PAY-MASS

Regardless of the minimum pay-mass, you should note that unavoidable production-related fluctuations in the mass in running order – both upwards and downwards – have a mirror-image effect on the remaining load capacity: If you order our example vehicle (see no. 3. above), for example, with optional equipment with a total weight of 150 kg, the calculated pay-mass based on the default value for the mass in running order is 275 kg. The load capacity actually available may deviate from this value due to tolerances and may be higher or lower. If the mass in running order of your vehicle is, for example, permissibly 2% higher than stated in the sales documents, the load capacity is reduced from 275 kg to 218 kg:

3.500 kg	technically permissible maximum laden mass
– 2.907 kg	real weighed mass in running order (+ 2% compared to the stated value of 2,850 kg)
– 3 · 75 kg	mass of the passengers
– 150 kg	optional equipment ordered for the specific vehicle
= 218 kg	Actual load capacity

As a precaution to ensure that the calculated pay-mass is actually given, you should therefore take the possible and permissible tolerances for the mass in running order into account when configuring your vehicle.

We also recommend that you weigh the laden motorhome on a non-automatic scale before each journey and, taking the individual weight of the passengers into account, determine whether the technically permissible maximum laden mass and the technically permissible maximum mass on the axle are observed.
